NEW

and the Control of th

FI HYBRID GRANDIFLORA PETUNIA

1257 grop flower seeds for all the world

New this year, and the first of a "Lustre" series, Blue Lustre is a remarkably fine F<sub>1</sub> hybrid grandiflora petunia. Its color varies prettily with the season and the age of the flower. Newly opened blooms are a deep,

velvety petunia blue. As they mature, or in hot weather, they develop a rich red undertone which varies like taffeta depending on the light under which they are viewed. The very oldest blooms silver to a typical midblue. Plants grow only a foot tall, spreading to 24 inches, bearing an incredible number of waved, lustrous flowers during the course of the season. In our trials it is both the earliest and latest grandiflora, with not a single pause in production through the season.

9052 BLUE LUSTRE....Trade Pkt. 1.75; 1/32 oz. 11.25; 1/16 oz. 21.50; 1/8 oz. 41.00; 1/4 oz. 77.50; 1/2 oz. 147.00; oz. 280.00

\*Sfue \* Lustre

FI HYBRID GRANDIFLORA PETUNIA

×

Electros of the large illustration on the front cover #3106J are available at \$55.00 or the cut-down pictured on this page #3113G at \$40.00 per set.

As illustrious as its predecessor, Red Satin, this new F<sub>1</sub> hybrid multiflora petunia, Pink Satin, possesses the same attractive, globe shaped plant, the same ability to cover itself with bloom, and the same persistently compact habit of growth.

The brilliant rose-pink flowers command attention by their intense concentration of color and then relieve that intensity with a clean, white area deep in the throat of the bloom.

Electros of the color plate on this page, #3109G, are available at \$40.00 per set.

Widely trialed and universally admired during 1956, Red Satin is without doubt the outstanding petunia novelty in gardens all over the world this summer.

This  $F_1$  hybrid multiflora beauty is a 1957 All-America Selections medal winner, and because of its obvious advantages over older strains it is rapidly displacing all other red flowered petunias.

These advantages are twofold. First, the flowers are such

a dazzling, intense scarletred that they are just insurpassable in this commanding color. And they stay that way through heat and sun right to the end of the season. Electros of the illustration on this page, newly corrected for more accurate color, are available as #3094G at \$40.00 per set.

Second, the plants themselves are an achievement in petunia breeding. Instead of growing tall, or sprawling, or splitting open in the center they stay in their neat, ball-shaped form all summer long. Only a foot tall, but steadily covered with  $2\frac{1}{2}$  to 3 inch blooms, Red Satin is unexcelled for low beds, well-behaved borders or edging, or spectacular potted plants.

We were overwhelmed by the number of orders we received during 1956, and as a result of this experience we are producing a great deal more seed this year — enough, we hope, for everyone.

9026 RED SATIN.....Trade Pkt. 1.10; 1/32 oz. 6.40; 1/16 oz. 12.00; 1/8 oz. 23.00; 1/4 oz. 43.00; 1/2 oz. 82.00; oz. 154.00

The third member of the Satin series is Peach Satin. Newly opened flowers of this  $F_1$  hybrid multiflora petunia are nearly coral in tone, and as the bloom becomes full the color softens to an appealing, warm salmon-pink.

Flower size is greater than Red Satin or Pink Satin, measuring 3 to  $3\frac{1}{2}$  inches, and the plants are slightly taller, reaching 14 to 16 inches. But the compact habit and resistance to "splitting" is the same, as well as the strong will-to-bloom.

Compare Peach Satin with Linda or Silver Medal. You'll find it superior both in flower color and habit of growth.

9016 PEACH SATIN....Trade Pkt. 1.10; 1/32 oz. 6.40; 1/16 oz. 12.00; 1/8 oz. 23.00; 1/4 oz. 43.00; 1/2 oz. 82.00; oz. 154.00

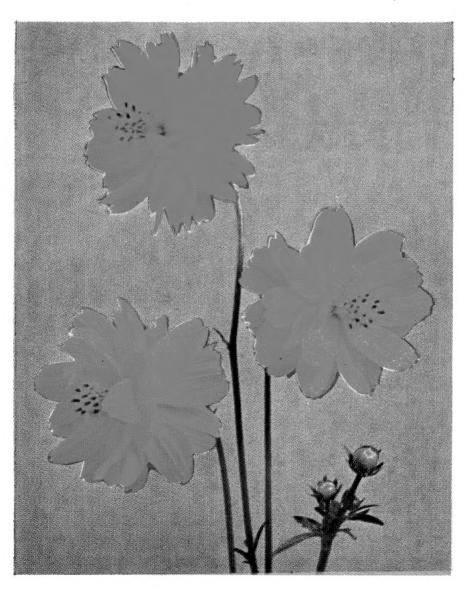

Electros of the color plate on this page, #3108H, are available at \$47.50 per set. You may also specify cut-downs at your option.

# Mandarin

We are proud to introduce this year this strongly double, brilliant orange cosmos. Flowers frequently have 40 or more petals, a real innovation in this class, but even more impressive are the Mandarin plants. The heavy, dense cover of foliage makes it superior to any other variety. This pleasing foliage is maintained all through the season, even after the plants have been in bloom a long time, and coverts cosmos from a sparse, open plant to a luxurious garden specimen.

Electros of this color plate, #3105G are available at \$40.00 per set.

Well established as the finest grandiflora petunia mixture after only two seasons, Carnival enters its third year with an impressive backlog of testimonials to its credit. The F<sub>2</sub> hybrid breeding technique which was so skillfully used to obtain an extreme color range has proved to be exceedingly effective in obtaining ample plant vigor to endure the most rigorous growing conditions.

Electros of the color plate on this page, #3083G or of the close-up on the opposite page, #3084G are available at \$40.00 per set. Flowers are mostly  $3\frac{1}{2}$  inches or more across and 80% waved, ruffled or fringed. Colors include blue, white, crimson, rose, scarlet, salmon, salmon-pink, carmine, brilliant rose, light pink, rosy lavender, cream-pink and variegated, starred or edged combinations of white and rose, white and pink, white and blue, plus many intermediate shades.

If you are not already listing Carnival be sure to add it to your next catalog, for this is the variety everybody knows and admires — and buys!

Times have changed. Until this year the main reliance of gardeners for a large flowered marigold was Sunset Giants. It isn't so any more, for in a single season Crackerjack Marigold has displaced the older variety.

Crackerjack is one of those fortunate breeding achievements which eliminates several flaws in an existing variety all in one stroke, and does it in a way apparent even to the most inexperienced gardener. Here's the record. Sunset Giants had big, beautiful flowers, and for these huge blooms the grower was willing to put up with a certain percentage of unlovely single blooms which appeared in the planting. Sunset Giants, in addition, were too late, too tall, and too rank in foliage growth.

Crackerjack has the same virtue Sunset Giants possessed — big, beautiful flowers. But in addition it has virtues to match Sunset Giants' flaws, for the flowers in trial grounds all over the world were all double — no single flowers were reported from any area. Moreover, the plants were in bloom weeks ahead of Sunset Giants, were compact, bushy, and only two-thirds their height, and instead of burying some of the blooms in foliage they held them proudly in view.

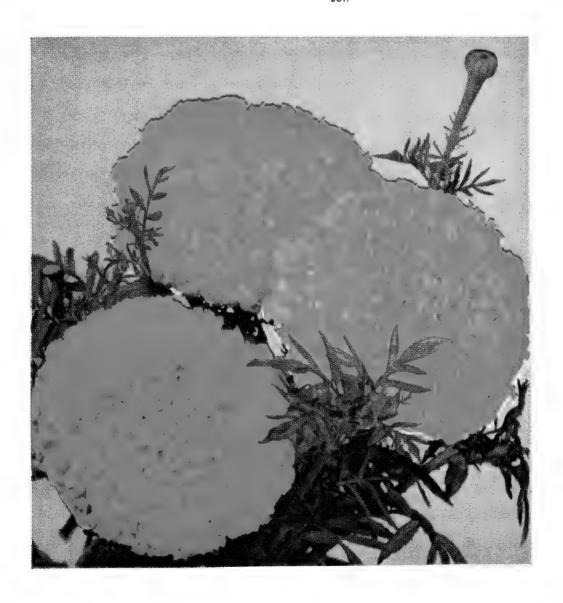

The colors in the Crackerjack mixture cover the full marigold range, including yellow, gold and orange as illustrated on the facing page as well as a light primrose not shown in the photograph. These colors are kept in perfect balance because we grow them separately and blend the seed mechanically by tested formula.

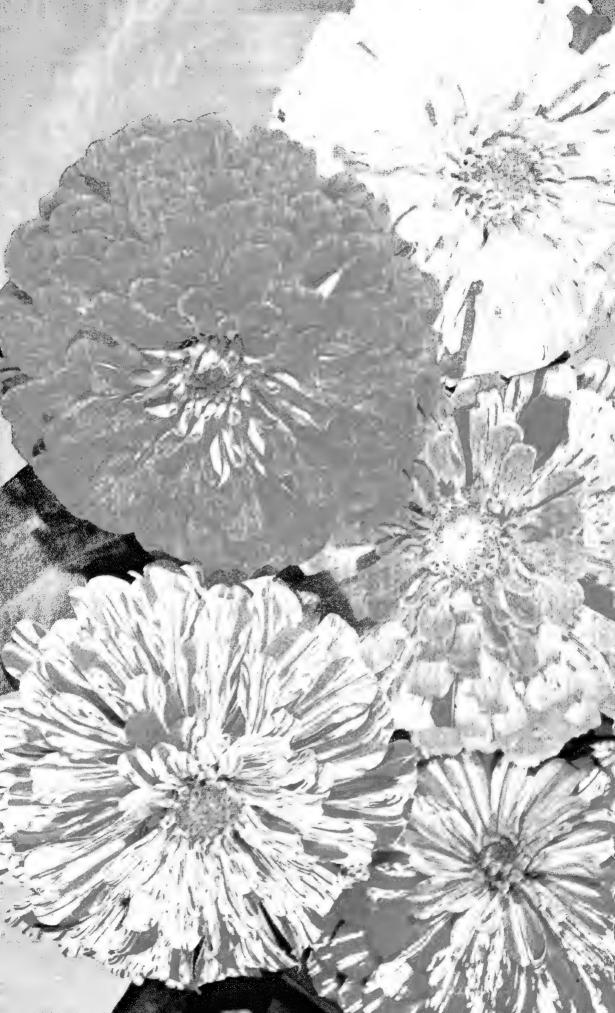

Widespread publicity in newspapers, magazines and over the radio have acquainted the public with Crackerjack, and by the unusual number of re-orders this spring we know this is a novelty they really like. While the demand in the South has been heavy because of the compact growth habit and extreme doubleness it is the northern United States and Canada that especially appreciate the characteristic of early maturity.

With so many thousands of gardens acting as neighborhood testing grounds this summer the increase in planting during 1958 is assured. Be sure you are ready with seed on hand!

4996 CRACKERJACK......Oz. 1.35; lb. 11.50

Electros of this illustration #3092H are available for your catalog at \$47.50 per

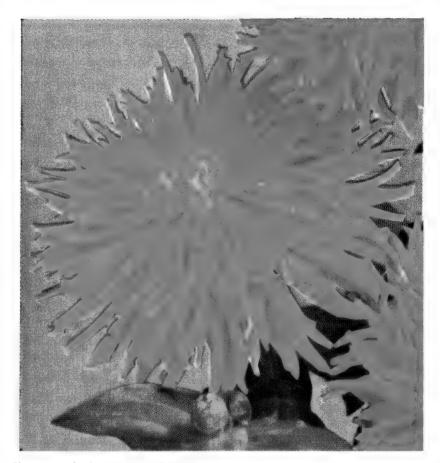

Heavy publicity can afford wide distribution for a new flower. Unusually fine breeding can create a novelty that is immediately successful. But combine the heaviest publicity campaign with the finest novelty in years, and a veritable explosion of interest results. This is what happened in the spring of 1957 to Ortho Polka Zinnia.

Ortho Polka is a striped zinnia with husky plants and ideal 4 inch, double blooms. Color combinations include pink and white, rose and white, red and white, lavender and white, scarlet and yellow, orange and yellow, red and orange, pink and rose as well as some solidly colored flowers of each hue. The markings are extremely varied, some sprinkled as dots, some striped, some with whole petals or sections of the flower in contrasting colors. Variations occur from week to week or on different branches of the same plant in a fascinating, neverending progression. It's the sort of garden plant that inspires a daily inspection to satisfy increasing curiosity about what new combination will appear next.

Millions of pieces of point-of-sale colored illustrations were distributed; posters and window streamers commanded attention; radio and television shows repeatedly boosted the novelty; newspapers and magazines told about it again and again, generally with illustrations; and finally there was even a genuine polka written (and it's available through regular music channels) extolling the Ortho Polka.

Electros of the Ortho Polka plate on the facing page #3097K are available at \$70.00, or a cut-down 4 x 4 1/4 " with the yellow flower and parts of other blooms is available as #3098H for \$47.50 per set.

Electros of the Pride of Dieldrin plate on the back cover #3107K are available at \$70.00 and cutdowns like this one #3114G for \$40.00 per set.

Another stride ahead in zinnias, Pride of Dieldrin brings vigor, strength of plant and a new color combination to the giant cactus flowered zinnia class. The sturdy plants carry a bountiful crop of 4 to 5 inch blooms with twisted and pointed petals. The flowers are bicolored with golden orange in the outer portion, deepening to the most vivid imaginable scarlet flame in the centers. Brought to view a year ahead of schedule to take advantage of a powerful marketing idea, it will receive unprecedented advertising backing.

1308 PRIDE OF DIELDRIN......Oz. 2.00; lb. 20.00

#### TERMS AND CONDITIONS OF DELIVERY

Prices quoted in this list go into effect immediately for spot sales and 1957 crop contracts, superseding all previous quotations. All orders of 4 ounces or over will be charged at the pound rate; all orders under 4 ounces will be charged at the ounce rate except where otherwise designated. Please note that it is generally to your advantage to order ¼ lb. rather than 3 ounces.

The minimum charge for each item billed will be fifty cents, due to the cost of handling small units.

All seeds are quoted F.O.B. El Monte, California, terms 60 days net, less 1% cash 30 days. All invoices payable in U. S. dollars in or by New York or Los Angeles Exchange. All overdue accounts subject to sight draft without further notice.

Bags and containers will be charged at cost and are not returnable.

We reserve the right to change any or all prices in this list without notice.

In case of crop shortages, orders will be filled pro rata only.

Crop failure or any cause beyond our control releases us entirely from delivery.

BODGER SEEDS LTD. warrants to the extent of the purchase price that seeds or bulbs sold are as described on the container, within recognized tolerances. Seller gives no other or further warranty, express or implied.

Should fulfillment of any order or contract be prevented or delayed by the act of God, war, blockade, revolution, prohibition of exports or imports, riots, strikes, lockouts, fires, and/or detention at sea or any other contingency beyond our control, we shall not be responsible for any loss and/or damage thereby.

#### PICTURES, PLATES AND PUBLICITY

**KODACHROME SLIDES:** We can supply high-fidelity 35mm slides (2"x2") of many of the flowers we grow. These are close-ups of individual flowers or groups, manufactured from our professional-size originals...Each .50c

HORTICULTURAL COLOR CHART: This is the most complete and useful compilation of horticultural colors available in the world. Assembled in two volumes of individual, unbound sheets which greatly facilitate color matching, the set is issued in collaboration with the Royal Horticultural Society and includes 200 pages with four graded tones of color on each page — a total of 800 different color blocks. The descriptive material includes equivalent color names in four other systems (such as Ridgeway), the synonyms in six foreign languages, and horticultural examples (for instance, color block 640/2 represents the color seen in Scilla campanularia). In the Bodger catalog the sweet peas, which are frequently distinguished by minor color differences, are adequately described by one or two sets of figures taken from this color chart.

PUBLICITY MATERIAL: Each spring we send a series of releases of garden information to hundreds of newspapers, radio and television stations, and magazines. They are widely used by garden editors. If you have need for this type of material, or if you have a suggestion to make concerning the addition of a publication or station to our list, just drop us a line and we'll be glad to comply. The service is free.

## PICTURES, PLATES AND PUBLICITY (con't.)

ELECTROS: We can supply electrotypes for use in printed matter of a great number of the pictures offered on the preceding page. 120 screen, usually square finish. Chosen from our Electro Catalog, our seed catalogs, or a selection of photos, and MADE UP TO ORDER ONLY. Allow ten days for completion of your order. Prices below apply to copper. For nickelsteel, add 25%.

COLOR PLATES: We have a large selection of color plates available. 120 screen, square finish, vinyl mold nickelsteel. Chosen from our Electro Catalog, our seed catalogs, or proofs submitted, and MADE UP TO ORDER ONLY. Allow ten days for completion of your order.

Electros and Color Plates are supplied unmounted (patent base) unless mounting is specifically requested. There is an additional charge of 25% for mounting. If we do not have an electro the size you need, you can purchase a photo and have your printer make a cut for you. Electro Catalog available free.

#### ELECTRO PRICES ARE AS FOLLOWS:

Note: Our electro prices directly reflect the standard electrotyper's scale in Los Angeles, which in turn reflects the high wages now paid in the engraving industry. We cannot control this. Before ordering, consult your printer. In some localities he may be able to have engravings made at lower cost than our prices.

## **ASTERS**

All Asters listed here can be grown by the home gardener wherever Asters are popular. Most of these Asters are also in great demand as florist's commercial varieties, especially those marked "f". In any case, seed we offer is of highest florist quality.

#### PRINCESS ASTERS (BODGER)

An ideal type for florists, suitable also for home gardens. Flowers have crested center that remains full when flower is completely open, surrounded by multiple rows of guard petals.

#### ASTER PRINCESS IMPROVED WILT RESISTANT (Marsha type)

New, compact branching plant form (identical with that of the variety Princess Marsha) 20"-24" high, completely covered with 3" true Princess flowers when plants bloom in late August. Long stemmed blooms keep excellently when cut, while plants provide the best garden landscaping color when planted at 9" spacing. These varieties are so superior in plant and flower that we have dropped the old Princess strain from our catalog.

#### TALL, LARGE FLOWERED TYPES

#### ZINNIA BODGER'S GOLD MEDAL DAHLIA FLOWERED (f) (Bodger)

Introduced by us in 1919; all the colors of our introduction since then. Plants medium height,  $2\frac{1}{2}$ '-3', bearing on strong stems huge fully double flowers resembling the show type of Dahlia. Most popular varieties marked with asterisk (\*).

		Per oz.	Per lb.
1260 *	CANARY BIRD, rich canary yellow	.85	7.00
1262 *	CRIMSON MONARCH, deep crimson, large	.85	7.00
1264 *	DREAM, deep rosy lavender	.85	7.00
1266 *	ELDORADO, salmon apricot	.85	7.00
1268 *	EXQUISITE, light rose, deep rose center	.85	7.00
1272 *	GOLDEN DAWN, golden yellow	.85	7.00
1274	GOLDEN STATE, golden orange	.85	7.00
1276 *	ILLUMINATION, deep rose red	.85	7.00
1280	LUMINOSA, bright pink	.85	7.00
1282	METEOR, deep red	.85	7.00
1288 *	ORIOLE, orange and gold	.85	7.00
1290 *	POLAR BEAR, white	.85	7.00
1292 *	PURPLE PRINCE, deep purple	.85	7.00
1298	ROYAL PURPLE ALEAMERICA SELECTIONS '42, rich		
	purple	.85	7.00
1294	SCARLET FLAME, bright scarlet	.85	7.00
1258 *	WILL ROGERS, lovely deep scarlet	.85	7.00
1306	GOLD MEDAL FINEST MIXED. You can depend		
	on perfect color balance, for we grow all		
	colors separately and blend mechanically ac-		
	cording to formula	.80	6.50
ZINNIA	ORTHO-POLKA		
1586	ORTHO-POLKA, best described as a giant Pep-		
	permint Stick, with flowers double the size		
	and plants much larger and more vigorous.		

Colors are bright and varied, with striping in 70% of the blooms. See pages 12-13

for more detail. . . . . . . . . . . . . . 1.45 13.50

ZINNIA SUPER CROWN O'GOLD (f) (Bodger)	Per oz.	Per lb.
1330 PASTEL TINTS (Bodger). Vastly improved strain		
of the Crown O'Gold type, with large well-		
formed flowers in rich pastel shades, each		
petal overlaid at the base with deep golden		
yellow. Flower type intermediate between		
Dahlia Flowered and California Giant	.80	6.50
ZINNIA BODGER'S CALIFORNIA GIANT or MAMMOTH (f)	(Bodger)	)
Introduced by us in 1926; most of the colors are of ou	r introd	luction
since then. This class makes fine cut flowers, especially for they can be forced nicely in the greenhouse. Flowers large		
long stems, very graceful. Colors which do not occur also		
Flowered class are marked with an asterisk (*).		
1350 BRIGHTNESS, bright pink	.85	7.00
1382 *CHERRY (CERISE) QUEEN, cherry rose	.85	7.00
1380 CRIMSON QUEEN, rich crimson	.85	7.00
1354 DAFFODIL, rich canary yellow	.85	7.00
1356 ENCHANTRESS, light rose, deep rose center	.85	7.00
1358 GOLDEN QUEEN, golden yellow	.85	7.00

PAPAVER	(See Poppy)

# F, HYBRID PETUNIAS

Extremely vigorous, generally low-growing, mound-shaped plants covered with flowers even under difficult growing conditions. For garden bedding and border use; each plant covers 24" (65cm) of space when mature, except the Satins which are more compact, and flowers until frost. Approximately 345,000 seeds per ounce. Offered only in sealed packets.

A trade packet contains approximately 1/192 of an ounce. Orders for 1/32 oz. or more of FI petunias will be filled in sealed trade packets if you wish, at no extra charge. For example: An order for 6 trade packets will be priced the same as for 1/32 oz., 12 trade packets the same as for 1/16 oz., etc. Please specify "in packets" or "in bulk." We cannot accept orders for less than one trade packet.

#### PETUNIA F. HYBRID MULTIFLORA (af)

<del></del>	~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~
9026	RED SATIN (Bodger)  ALL-MERICA SELECTIONS '57  The new and vivid scarlet-red dwarf All-America winner pictured and described on pages 4-5.
9016	PEACH SATIN (Bodger), a lovely new multiflora with unusually large flowers which open first to a coral color, changing the next day to an appealingly soft salmon-pink. Plants are well-behaved, compact and carry the will-to-bloom feature so prominent in the best FI hybrids. Described and pictured on page 6.
9018	PINK SATIN (Bodger), fine, dwarf, globe-shaped plants with a solid mass of satiny, lustrous, bright pink blooms. An inch or so taller than Red Satin, but of the same compact habit that just doesn't split open as the plant grows older. Described and pictured on page 3.

## F, HYBRID PETUNIAS (continued)

#### PETUNIA F. HYBRID GRANDIFLORA (af)

BLUE LUSTRE (Bodger), new and wonderful, the big, waved grandiflora flowers are deep mid-blue in hot weather, becoming almost as dark as Elk's Pride in cool weather. Plants grow 1 foot tall and 11/2 to 2 feet across, beginning to bloom very early and continuing without interruption to the very end of the season. For more complete description and color picture see pages 1-2. Trade pkt. 1.75; 1/32 oz. 11.25; 1/16 oz. 21.50; 1/8 oz.

41.00; ¼ oz. 77.50; ½ oz. 147.00; 1 oz. 280.00.

#### INTERMEDIATE TYPES

....5528 FINEST MIXED by formula ................. 3.00 30.00

Petunias in this class have medium-sized flowers and compact plants. They, like the Giant types, are unique and beautiful enough to merit the painstaking "brush-every-flower" hand pollination technique necessary for their production.

	Per 1/16 oz.		Per oz.

strong stems, robust (20/1 flushed 621)	3.00
7136 EXTRA CHOICE MIXED, newest and brightest colors	2.75
7138 CHOICE MIXED	2.25

### SWEET PEA ZVOLANEK MULTIFLORA (af)

A garden sweet pea more vigorous than Early Spencers, yet true winter flowering for florists. Under ideal conditions Multifloras produce longer and stronger stems, larger florets and more of them. Under any conditions they produce an average of two more florets per stem than the Early Spencers. We recommend this strain.

		Per lb.	
8736	BEAUTY ROSE, (Early Spencer American Beauty color) (727/1)	3.00	
8744	DEEP ROSE (27/1) (Color of Annie Laurie)	3.00

## BUSINESS REPLY ENVELOPE

FIRST CLASS PERMIT NO. 13, EL MCNIE, CALIFORNIA

# BODGER SEEDS Ltd.

Box 390
EL MONTE
CALIFORNIA

Firmly established as the leading  $F_2$  hybrid snapdragon, Mardi Gras combines the advantages of earliness (to escape damaging heat) with hybrid vigor for long spikes and the extreme color range possible only by the precise application of the  $F_2$  breeding method. In a good sized planting you can count at least 20 colors and color combinations.

1898 MARDI GRAS ......Oz. 1.50; lb. 15.00

Electros of this illustration #3096G are available for your catalog at \$40.00 per set.

New zinnia Pride of Dieldrin see page 14.
